Players can double their bet in play
Selectable multi-denomination & odds table

Jumbo Technology Co., Ltd.

was established in 2000, specializes in designing, developing and manufacturing professional casino gaming products, which stands one of the most popular and potential businesses in industry.

Mission Statement

Following the corporate culture (**RICH**) -Responsibility, Integrity, Creativity and Honesty, Jumbo Technology Corporation endeavors to integrate professional know-how, develop kernel technology, ensure quality control, fulfill customer requirements and promote business relationship. Jumbo technology is committed to providing industry with the most excellent gaming products and services, and proudly bringing people sophisticated operation experiences.

Advantages of Products

The most fascinating feature of Jumbo's gaming products is the "Perfect Combination" of games and machines. In all of Jumbo's line of products, which now includes a variety of ETGs and slot machines, we emphasize on providing the best gaming experience. Jumbo has created the products particularly to accentuate on the "Physical Dealing Mechanism" and "Real Time Image Display" of gaming. This offers the electronic games a more lively and authentic gaming, also provides the player a sense of reality. The "True Physical" random number generator and instant image transmission exemplify the spirit of "Seeing Is Believing" in the traditional casino table games. Jumbo Video slot is yet another excellent product added to the collection of gaming machines. As an Asian based corporation from Taiwan, Jumbo possesses a higher cultural and conceptual compatibility than other competitors within the industry in this booming Asian market. With the understanding of Chinese thinking in game designs and developments, Jumbo has the ability to make machines extensively and thoroughly to fit in with any casinos.

Marketing

We use brand effect as our marketing approach and help partners to create outstanding profit by our total assistance. We also put much emphasis on the gaming club partner selection and operation.
